

### CURIOUS ELECTION FIGURES.

The Carson Union has figured it out after following fashion:

The analysis of the official returns discloses some peculiar facts. The aggregate strength of the vote of the State of Nevada seems to have been brought out on other candidacies than that for the Governorship, which would naturally be supposed to attract the suffrage of every voter. The order in which the different State officers rank in importance according to this test is given below. This must not be accepted, however, as indicating the fact that those voters who did not exercise a choice were inattentive to the importance of the different offices to be filled by the election, as many party men, who are dissatisfied with a nomination, content themselves with simply erasing the name of the objectionable candidate. The figures are curious, however. Here are the officers and aggregates in their order:

Supreme Judge.....12,378  
 Surveyor General.....12,374  
 State Printer.....12,372  
 Congressman.....12,370  
 Treasurer.....12,368  
 Lieutenant Governor.....12,363  
 Supreme Court Clerk.....12,359  
 Supt. Pub. Ins.....12,354  
 Secretary of State.....12,351  
 Attorney General.....12,350  
 Governor.....12,333  
 Controller.....12,321  
 District Judges.....12,148

The votes cast for the District Judges is given as indicated by the votes received by all the candidates, divided by three.

The individual majorities received by the different candidates over their opponents for the same office, are still more curiously distributed and variable in the aggregations. Omitting for the moment the majorities for District Judgeships the list runs as follows:

Jones, Sur. Gen'l.....1,516  
 Davis, Lieut. Gov.....1,440  
 Alexander, Att'y Gen'l.....1,364  
 Dwyer, Supt. Pub. Ins.....1,333  
 Harlow, State Printer.....1,281  
 Woodburn, Congressman.....1,030  
 Tuffy, Treas.....960  
 Becknell, S. Clerk.....937  
 Dwyer, Sec'y of State.....735  
 Stevenson, Governor.....591  
 Belknap, Supreme Judge.....590  
 Hallock, Controller.....407

In the case of the District Judges it is more difficult to give the majorities over competitors, as there were six candidates running in a "bunch," so to speak. Upon the theory that 6075 votes were in each case necessary to elect a candidate for that position we find that the popular majorities or number of votes received more than sufficient to elect, were as follows:

Rising.....1,037  
 Bigelow.....471  
 Fitzgerald.....58  
 The equivalent of these figures stated as majorities over competing candidates would be as follows:

Rising.....2,074  
 Bigelow.....942  
 Fitzgerald.....116

But the literal fact is that Rising received 2,099 more votes than Rising; Bigelow 581 votes more than Cresswell, and Fitzgerald 160 votes more than McKenney.

Striking an average among the Republican majorities [omitting for this purpose the Democratic majorities of Belknap and Fitzgerald] we find that the true Republican majority in the State is 935, and that this is equally well represented by Woodburn with his majority of 1030 and Tuffy with his majority of 930.

If we subtract the aggregate Democratic majorities from the aggregate Republican majorities, and thus strike the average, we find that Tuffy with his majority of 960 almost precisely represents the true Republican majority in the State.

An Extra Session of Congress Probable.

WASHINGTON, December 23.—The Evening Star has the following: "The probability of the Fiftyeth Congress being convened in extra session at an early day in the Spring, is being discussed among public men. Unless the present Congress shall provide some means of relieving the Treasury from the steadily increasing surplus, it is the belief of some prominent Democrats that Congress will be called together to perform that task. One of the high officers of the Treasury says he has no doubt of an extra session unless this Congress shall deal with the surplus question. He expressed the opinion that the President would convene the Fiftyeth Congress within thirty days after the 4th of March, should nothing be done in the way of relief for the Treasury by that time."

WHAT LYON COUNTY WANTS.—The News Reporter has the following:

During the coming session of the Legislature the representatives of Lyon county should cast about them and see if anything can be done in the way of legislation to benefit our people. The News Reporter thinks much can be done. The peculiar and ill-shaped boundary lines of our county could and should be straightened and arranged that people living in the extreme southern portion of the county will not be compelled to cross the boundaries of other counties to reach the county seat at Dayton. This can be done by detaching from Douglas and attaching to Lyon county that small strip of territory almost the shape of a cigar intersecting Lyon at a point near the "Old Jew" ranch, at the head of Churchill canyon. To straighten the county lines at this point would not do an injustice to Douglas as the territory is of little if any value and is valuable to Lyon only as it throws all the public road leading to Smith's Valley into Lyon without a break.

Economy in the administration of county affairs is one of great importance to the taxpayers. In order to secure such an administration by our county officials they must be assisted by legislative enactments. During the twelfth session the representatives of Storey county foresaw the necessity of such legislation, and secured the passage of a law consolidating the Storey county offices.

This is what Lyon county should have done at the same time, but for reasons not necessary to explain it was not done. By the consolidation of our county offices we would save in salaries alone about \$5,000 per annum. As it is now our county officials have but little to do and, as a general rule, are poorly paid. Make the County Clerk ex-officio County Recorder and Auditor at a salary of \$2,400 per annum; the Sheriff ex-officio County Assessor at \$2,400; the Treasurer ex-officio Superintendent of Public Schools at \$1,400; District Attorney's salary \$25 per annum.

Under the Constitution we must elect a District Attorney. Thus we will comply with the law and when the county is in need of legal services let her go into the market or legal talent and purchase it. It will be readily seen that by such consolidations the county would save from \$5000 to \$6000 per annum, besides giving our county officials an opportunity to earn a respectable salary.

Lyon county has a bonded indebtedness of \$25,000, bearing eight per cent interest. The News Reporter believes that a new bond bill should be passed giving the County Commissioners of Lyon county power to reacquire the old bonds and float new ones at a lower rate of interest. Hence, the News Reporter holds, as stated, at the commencement of this article, that our representatives can do much for the interest and welfare of our people.

ADVICE TO PARENTS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-awc-1v.

all.

ARTESIAN WELLS AS A MOTIVE POWER  
A flour mill in New Jersey is supplied  
with electric light by motive power de-  
rived from a turbine wheel which is set  
in motion by the water of an artesian  
well, sunk for this especial purpose.  
Artesian wells have recently been sunk  
in several parts of London in order to  
render the proprietors independent of  
the water companies. Wherever the  
rise and quantity of flow is sufficiently  
great, these fortunate individuals are in  
a position to provide themselves with  
electric light at a very low cost.

KINDERGARTEN

A Peculiarly Beneficial Juvenile Institution

Throughout the East in San Fran-  
cisco and elsewhere on the Pacific Coast  
the "Kindergarten" style of primary ed-  
ucation for youngest children has de-  
servedly become very popular from the  
plainly apparent beneficial results. The  
idea is of German origin, hence the  
name and a good illustration is the  
school established in Reno during the  
past season. It is not connected with  
the public schools, although established  
in a convenient department of the old  
public school building on Sierra street  
and is supported by private subscription  
and tuition fees under the direction of  
the Kindergarten Association composed  
of leading ladies and parents. In  
McCracken, a graduate of Miss Sarah  
B. Cooper's famous Kindergarten School  
of San Francisco, is principal assisted  
by Miss Ada Finlayson of Reno. An  
Enterprise representative recently visit-  
ing the school gives the following result  
of his observations:

The schoolroom is commodious and  
comfortable, with a spacious yard prop-  
erly fenced at the rear for play and ex-  
ercise. Suitable seats desks and tables  
are provided in an oblong circle with  
peculiar cross walks and interminations  
is painted upon the ceiling of the floor.  
The ringing of a bell brought the  
two dozen little ones belonging to the  
school rushing eagerly into the room  
from the yard where they had been  
playing, and to the music of a march  
performed on the piano by Miss Finlay-  
son and three taps on a bell, by Miss  
McCracken, they marched in regular  
order around the ring keeping perfect  
time and singing a simple song as they  
went. The order of the march was  
changed occasionally following the dir-  
gram on the floor and all seemed very  
much interested in being as correct as  
possible.

A variety of pleasing games and song  
followed the pupils standing ranged  
around the outer circle, and all in unison  
illustrated the meaning and sentiments  
of the songs by appropriate action  
with hands arms and heads expressive  
of the various emotions. In one devo-  
tional song all bent their little heads  
and folded their hands and in another  
of a joyous nature they ran tripping  
and dancing about the ring waving  
their hands hilariously in the air. They  
also sang little games dialogues etc.  
using the appropriate action taught  
and all without exhibiting a deep  
interest and devotion to the study of  
the principles of the Kindergarten.

Reading writing, arithmetic and  
spelling are also taught in their rud-  
imentary forms, also sewing, in which  
little accomplishments the boys, as well  
as the girls, engage. Many a "Forty-  
miser" wish he had been thus taught  
how to sew on buttons and mend his  
breeches in his childhood days. But  
the most pleasing feature of all was to  
note the strong willing and happy in-  
terest the little ones all took in the  
exercises and studies so attractively  
presented to them, and so healthy and  
agreeable to the juvenile mind and body.  
All were quiet and orderly, and no  
scoldings or corrections required. In  
fact, none of them ever want to be  
absent from Kindergarten. The ages for  
admission are from three to nine years,  
and most certainly the parents of those  
little ones could not wish them to be  
better cared for or more agreeably and  
satisfactorily engaged when not under  
their immediate attention.

The closing exercises of the term took  
place yesterday, in the shape of pleasing  
vocal, literary and other exercises, and  
to night a dramatic entertainment and  
dance is to be given at the Nevada  
Theater in aid of the Kindergarten As-  
sociation the admission being \$1. To  
those not wishing to remain for the  
dance, the admission will be fifty cents.  
Any parent who pays the Kindergarten  
a visit cannot fail to appreciate its truly  
practical and beneficial utility in any  
community where properly and compe-  
tently conducted.

THE ENTERTAINMENT TO-NIGHT.—The  
play and dance given by the Kinder-  
garten Association at the Theater to-night  
should draw a crowded house, for the  
cause is worthy of it and the entertain-  
ment fully worth the price of admission,  
which is 50 cents for those who do not  
desire to remain to the dance, and \$1  
for all who intend to take in both.  
Seats on sale at Nasby's.

There will be services in the Metho-  
dist Church, Sierra St., next Sabbath  
morning at 11 o'clock. Subject, "The  
Crowning Glory," and at 7 p. m. Sub-  
ject "The Boyhood of Jesus."  
Huffaker's—Service at 3 p. m.

A HEAVY HEIFER.

How Some of the Reno Cattle Sharps  
Lost a Little of Their Skin

About 1 o'clock on last Tuesday after-  
noon a rather motley crowd of pedes-  
trians might have been seen following  
close in the rear of a small drove of beef  
cattle, that were being driven through  
town. Among the drove was a three-  
year-old heifer, remarkable for her im-  
mense weight considering her small  
size. Among the group of pedestrians  
was a rather seedy-looking granger  
who was taking all bets on weights as  
fast as they were offered. Old cattle  
sharps, who had been dealing in cattle  
for thirty years, were besieging the  
granger for bets, some wanting to bet the  
heifer would not weigh 825 pounds net  
while the cattle sharps to make sure  
doubtless offered to wager the granger  
that she would not net 875, others 900  
while another, who never bet only when  
he had a deal sure thing named 925  
pounds, all these bets the granger took  
and called for more. At this juncture  
a prominent Reno merchant, who is also  
a dealer in cattle, came up and offered  
to bet the granger that the heifer would  
not net 900 pounds. This bet the  
granger took. The merchant took an  
other critical glance at the heifer and  
remained in the presence of the whole  
crowd that if the heifer netted 900  
pounds he would agree to eat her at one  
meal. At this stage of the proceedings  
the granger remarked that the heifer  
would not close to 975 pounds. This  
seemed preposterous, and a couple of  
old cattle dealers, who had dealt in cat-  
tle for more than thirty years, made a  
 wager with the granger that if she netted  
over 950 they were to be put in the In-  
dian Asylum, while if she netted less  
than 950 pounds the granger was to go  
to jail. The remarkable heifer was  
rased on the flank of Mr. Norcross.  
Her gross weight was 1,300 pounds. It  
he netted 900 pounds she would be  
sold every day by the milk and the  
cattle sharps would be satisfied with the  
bet. The heifer was then driven on to the  
Coast.

THE CAMP.—The camp of the  
Indians on the Carson river is the  
most interesting place in the country.  
It is situated in a beautiful valley  
and is the most important place in the  
region.

In Virginia City the paradox usually  
one, of men who, living on the prosper-  
ity of the camp, religiously en-  
toiled, and to a stranger, tell the most impossible  
lies.

I have carefully "sussed up" the city,  
and find that if the fool killer and the  
local police authorities would do their  
full work Virginia City would be well  
rid of much that now continually  
I had every assurance from those whose  
capital and lives are bound up in the  
success of the town, to prove that, not  
withstanding the trouble and enough  
of solat prosper remains to make the  
camp the Chosen Mecca of all who are  
willing to work for fair wages. The  
common cry against the V & T Road  
is not only suicidal but very inopportu-  
ne just now, as it is the only channel  
of vitality by which the camp can win.

I have talked with J. J. Bray, of the  
local train on the V & T, and the  
gentleman assured me that he has, in a  
term of five years service never known  
a time when the outlook was better for  
the Comstock than now. Mr.  
Bray is peculiarly intelligent and his  
word to me, is more than the combined  
cry of the thousand drones, who live by  
their wits, or rather by the lack of wit  
in better men.

The Comstock is bound to come up—

**PARKER'S MAP OF NEVADA.**

**PARKER'S NEW MAP OF NEVADA.**

**THIS NEW AND BEAUTIFUL**

**MAP OF THE STATE,**

**Has Just Been Published, and is Now Ready for Sale.**

It has been completed with great care in order to insure its being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, library or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

**The Price of the Map is \$5.00,**

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.
